Recommended Tools:

You will need basic bench tools for this course including a good set of pliers, a sawing setup, miter jig, ruler or digital calipers, bench block and safety glasses and apron. You will also need a fully equipped soldering station including the proper style of torch and the ability to drill holes. For more detailed descriptions and slightly less common items you'll need, see the list below.

\bigcirc	<u>4/0 saw blades</u> (OF #149.104D)
